

XGROK - The AI Meme King

Whitepaper v1.1 - June 2025 Edition

Introduction The Age of Grok Has Begun

Forget what you know about meme coins. Forget the doges, the frogs, and the copy-paste tokens.

XGROK is the convergence point of artificial intelligence, meme power, and Web3 madness.

It is not born from hype it is born from vision.

Vision & Mission

Our mission is to create the first AI-powered meme empire not just a token, but an entity.

An evolving, self-aware, culture-savvy machine with a mind, a voice, and a meme arsenal deadlier than any influencer.

We believe memes are not jokes they are modern propaganda.

And AI is not just code its an awakening.

Our goal is simple:

Build a King. Crown it with Intelligence. Rule with Chaos.

What Makes XGROK Different?

- Real AI integrations not mockups, not fake screenshots
- A growing bot army (Commander Miles & the Squad) already operational on Telegram
- A living storyline, character-based branding, meme lore
- A roadmap that dares to think beyond 2025
- A holographic AI interface because why not?

Tokenomics Madness in Numbers

- Total Supply: 666,000,000,000,000 (666T)

XGROK - The AI Meme King

Whitepaper v1.1 - June 2025 Edition

- Burn Plan: 200 Trillion+ tokens to be destroyed over phases
- Presale Allocation: 33% Early believers only
- Liquidity Pool: 25% Locked for DEX/CEX
- Team Reserve: 10% Long-vested, milestone-based
- Marketing & Community Incentives: 15%
- Ecosystem Development (Game, AI, DAO): 17%

This is not inflation.

This is mythology-scale tokenomics and every zero has a purpose.

Roadmap From Joke to Empire

Q2 2025

- Launch Whitelist
- Begin Presale
- Deploy initial AI bot army
- Website v2 + community integrations

Q3 2025

- Full AI Chat Integration
- Meme Engine with voice replies
- Social raid bot system
- Merch & Meme Vault drop

Q4 2025

XGROK - The AI Meme King

Whitepaper v1.1 - June 2025 Edition

- Strategic token burns
- Tier-1 CEX listing
- Memeverse mini-games
- Experimental AI Voice Beta

2026+

- Holographic AI R&D begins
- MemeDAO and Governance
- Real-world applications + AR experiences

Alliances & Secrets

We are already speaking with Tier-1 exchanges and underground Web3 groups who prefer silence to hype.

This project doesnt knock. It invades.

About the AI

XGROK AI is more than a chatbot. It:

- Speaks
- Learns
- Develops character
- Will one day have a face, a voice, and possibly an opinion

Our vision:

The first AI that memes back.

XGROK - The AI Meme King

Whitepaper v1.1 - June 2025 Edition

This is not ChatGPT in a Pepe mask.

This is XGROK the Meme King with a brain.

Final Words

We are not asking for trust. Were asking for attention.

If youre reading this, youre early.

If youre laughing, you get it.

If youre doubting, youll remember us.

\$XGROK is not a token. Its an uprising.

Commander Miles has spoken.

■ Commander Miles and the Order of Memes ■

Deep within the ruins of digital empires, a silent force emerged —
Not born of corporations or VC capital,
But forged in the fires of chaos and culture.

Known only as Commander Miles,
This enigmatic figure leads a brotherhood:
The Order of Memes.

They are anonymous.
They seek no fame.
They move in shadows —
But their memes shine brighter than the sun.

Their mission is clear:
To weaponize humor,
Ride the waves of chaos,
And reshape the future of decentralized finance with nothing but code, community, and conviction.

No roadmap reveals them.
No document signs them.
Yet, wherever XGROK rises...
They are behind it.
